# DUST MANAGEMENT PRODUCTS

CODE

Dust Protection Products for mills and high-dust environments

Code Electric Products offers a wide range of products designed to assist in the **management of dust accumulation.** These range from our standard line of **CSA rated electrical enclosures,** to **sloped-top enclosures, monitor screen enclosures, wireway,** and **peaked cable tray cover.**
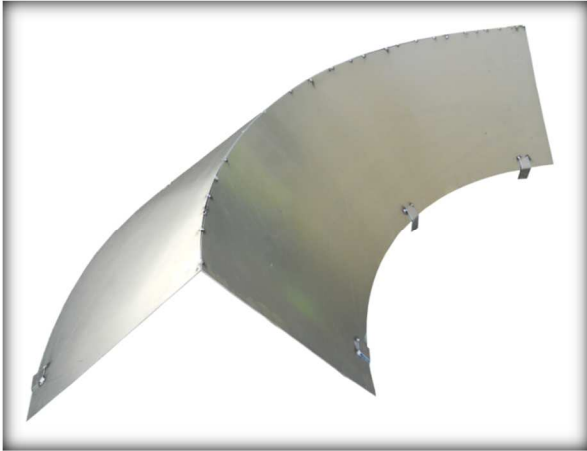

Slope-Top & Monitor Enclosures

Slope-Top Enclosures are designed to minimize dust collects on the top of the enclosure, saving maintenance time and costs.

Monitor Enclosures are for housing your monitor screens, ensuring no dust clogs up the unit, causing premature failure.
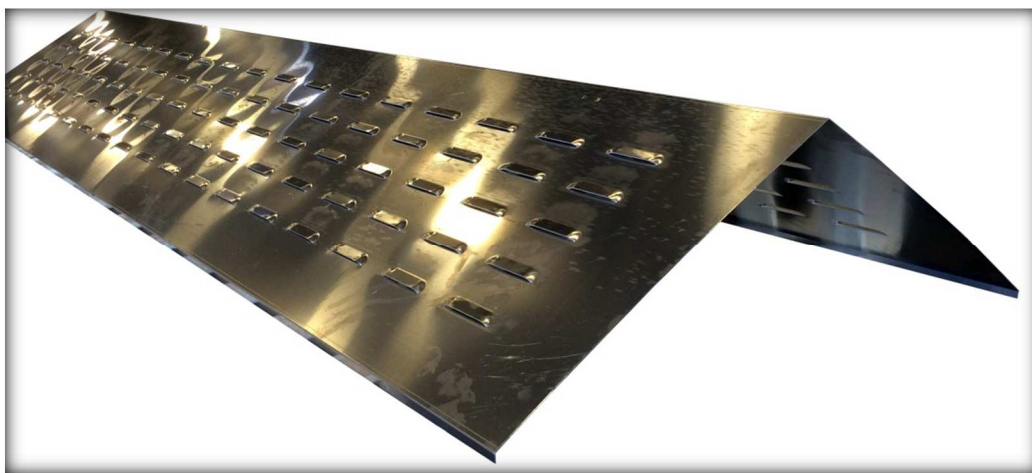

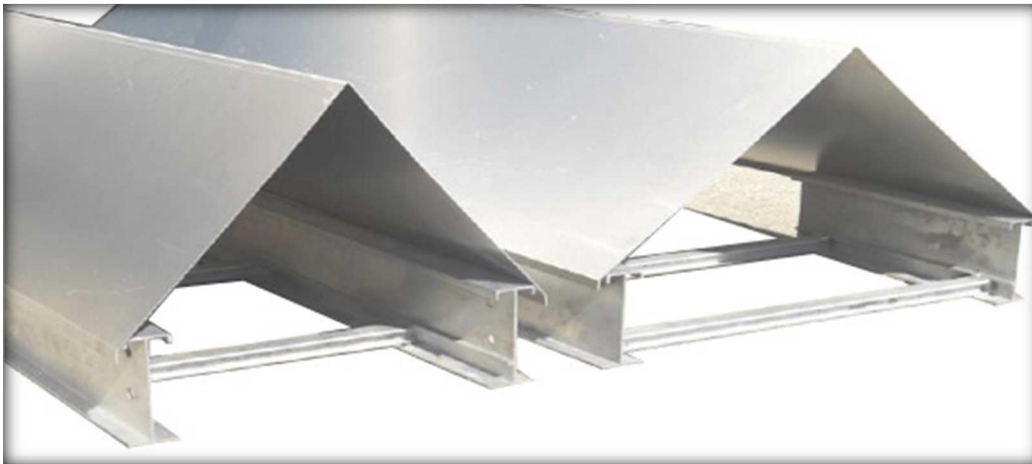

Peaked Cable Tray Cover

Peaked Cable Tray Cover can be made in aluminum, galvanized steel and stainless steel, and formed to any slope degree needed. Curves and bends can be manufactured to order.

Best of all, Code can make peaked cover to fit any brand of existing tray.

Wireway & Special Consoles

Our oil-tight lay-in wireway is a complete system designed to permit fast and easy installation of multiple wire runs.

Code can also design touchscreen and pushbutton consoles built to order for your specific application.
